

Circle City Copperworks Sample Policy

We are happy to send 4" x 4" actual copper finished samples for color and texture selection. Because our copper samples are handmade and costly, we charge \$10 per sample plus \$15 for shipping to you, which also include a pre-paid shipping return padded envelope inside. The sample pieces cost will be deducted from your final invoice if you place an order. Due to the fact that all of our products are handcrafted, colors and textures will vary. This is a major reason that we enclose a postage paid return padded envelope in the box for you to send the samples back after your selection. Having the exact sample that you chose helps our craftsmen match your choice as closely as possible.
